

COMBA High Performance Player Payment Policy

We are excited to offer High Performance baseball for ages 13U through to College Prep. COMBA has had an impressive track record with teams placing at provincials and competing at Western National Championships and we are encouraged by the growth of the athletes in our programs.

In order to offer robust programming for our high performance athletes, there are significant charges incurred. COMBA will do everything it is able to in order to keep costs low and reasonable. Please be aware, as the age of the player increases, so do the costs.

Players and families have two options for payment of their High Performance fees:

- 1) Full payment at the time of invoice by cheque, e-transfer or through TeamSnap for credit card payments. Please note there is an additional fee incurred for credit card payments.

Spring fees will be invoiced shortly after team rosters are announced.

Fall and Winter fees are paid at the time of registration, with the exception of College Prep that has two installments over the winter season.

- 2) Scheduled payments through Teamsnap after the fees have been set, for all seasons.

It is not fair to coaches to have to make the decision to not allow a player on the field due to non-payment of fees. **If players are behind on team fees, they will be removed from the roster.** In both options above, the COMBA Treasurer will communicate to the team coach if a player is behind on fees and the player will be removed from the roster. Once fees are paid, the player can resume playing.
